# How to use Kvik's Mediabank

kvik

About

Kvik's Mediabank is a database that shows a collection of media assets owned by Kvik A/S.
By downloading the images, the user accepts the condition of copyright of the medias.
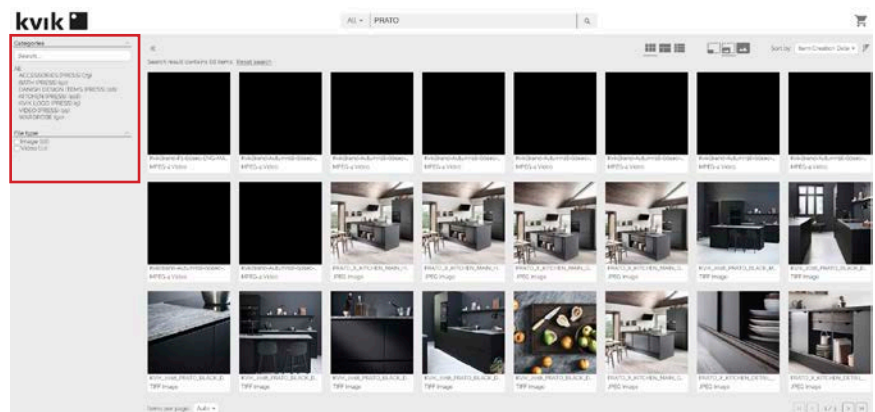

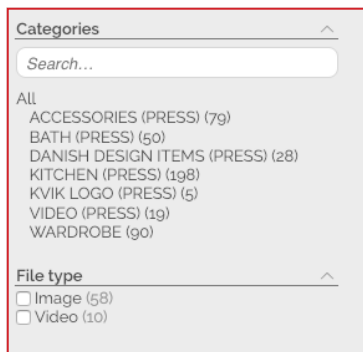

To access high resolution images please visit mediabank.kvik.com/press

This is the home view, which shows most recent images from all categories.

The side panel shows an overview of the content divided into categories.
For specific search enquiries it is possible to use the search field.

How to download images:

To download an asset, press the square with the arrow - *"Download the asset".* (See image to left)
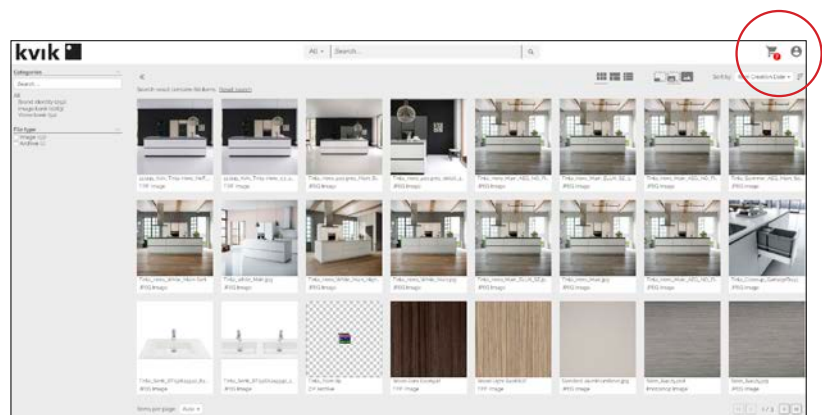

The asset can be downloaded in two formats. Choose one:

- For PowerPoint/Word (recommended for low resolution images)
- Original as JPEG (Recommended for high resolution images)

If more than one asset should be downloaded, it's possible to select them by clicking the shopping cart under the asset (see image to left).

To see all assets that have been selected to the cart, click on the shopping cart in the top right corner of the page.

kvik ■

To download all selected item at the same time, click "download items".

If an asset should be removed from the cart, use the icon to the right.

To find information on an asset, e.g. whitegoods, item numbers, sink, size and format. Click on the information icon.
